

**Bert Cappelle** é Professor Associado de Linguística Inglesa na Universidade de Lille. Suas áreas de pesquisa são os verbos com partícula (*find out, sod off, speed things up*, etc.), expressões de movimento espacial e de percepção visual, valência verbal e estrutura argumental, construções existenciais, construções com verbos modais, a negação, relações língua-cognição, tradutologia com base em corpus, a Gramática de Construção como âmbito teórico. Entre as suas publicações mais recentes, encontram-se “Temperaments, tempers, and temporality. Constructions reveal how speakers of French and English conceptualize human properties” (Bert Cappelle, Vassil Mostrov, Fayssal Tayalati, 2020), “The necessity modals *have to, must, need to* and *should*: using n-grams to help identify common and distinct semantic and pragmatic aspects (Bert Cappelle, Ilse Depraetere, Mégane Lesuisse, 2019), e “Facing the facts of *fake*: a distributional semantics and corpus annotation approach” (Bert Cappelle, Pascal Denis, Mikaela Keller, 2018).

**Bert Cappelle** est Maître de Conférences en linguistique anglaise à l'Université de Lille. Ses domaines de recherche concernent les verbes à particule (*find out, sod off, speed things up*, etc.), les expressions de mouvement spatial et de perception visuelle, la valence verbale et la structure argumentale, les constructions existentielles, les constructions aux verbes modaux, la négation, les liens langue-cognition, la traductologie sur corpus et la Grammaire de Construction comme cadre théorique. Parmi ses publications les plus récentes se trouvent “Temperaments, tempers, and temporality: constructions reveal how speakers of French and English conceptualize human properties” (Bert Cappelle, Vassil Mostrov, Fayssal Tayalati, 2020), “The necessity modals *have to, must, need to* and *should*: using n-grams to help identify common and distinct semantic and pragmatic aspects (Bert Cappelle, Ilse Depraetere, Mégane Lesuisse, 2019) et “Facing the facts of *fake*: a distributional semantics and corpus annotation approach” (Bert Cappelle, Pascal Denis, Mikaela Keller, 2018).
